

## 2026 Kaohsiung International Cancer Symposium

主辦單位 Organizers：高雄醫學大學附設中和紀念醫院(機械手臂手術中心、大腸直腸外科、癌症中心)  
(Center of Robotic-Assisted Surgery, Division of Colorectal Surgery, Cancer Center)

高雄市胃腸道腫瘤關懷協會 The Association of Kaohsiung Gastrointestinal Cancer Care

研討會日期：2026 年 3 月 21 日(六)

Date: March 21, 2026

研討會地點：高雄醫學大學附設中和紀念醫院啟川大樓六樓第二講堂

Venue: 6F Building E, Kaohsiung Medical University Chung-Ho Memorial Hospital

3 月 21 日(星期六) Saturday, 21 March

| Time        | Topic                                                                                                                                | Speaker                 | Moderator                   |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------|-------------------------|-----------------------------|
| 08:30-08:50 | Registration                                                                                                                         |                         |                             |
| 08:50-08:55 | Opening Remarks                                                                                                                      | Jaw-Yuan Wang<br>王照元    |                             |
| 08:55-09:00 | Opening Remarks                                                                                                                      | Tzu-Liang Chen<br>陳自諒   |                             |
| 09:00-10:45 | Robotic-Assisted Surgery and Laparoscopic Surgery                                                                                    |                         |                             |
| 09:00-09:30 | Current Status and Future Prospects of Robot-Assisted Surgery for Colorectal Cancer in Japan                                         | Akio Shiomi<br>塩見明生     | Jaw-Yuan Wang<br>王照元<br>李興中 |
| 09:30-10:00 | New Challenges in Minimally Invasive Surgery for Rectal Cancer and Transverse Colon Cancer                                           | Atsushi Hamabe<br>濱部敦史  | Tzu-Liang Chen<br>陳自諒       |
| 10:00-10:30 | Colorectal Surgery with HUGO                                                                                                         | Jiwon Park              | Jin-Tung Liang<br>梁金銅       |
| 10:30-10:45 | Panel Discussion                                                                                                                     | Speakers and Moderators |                             |
| 10:45-11:00 | Coffee Break                                                                                                                         |                         |                             |
| 11:00-12:00 | Strategies for Advanced Rectal Cancer                                                                                                |                         |                             |
| 11:00-11:35 | Current Research Gap and Tumor Response Assessment: TNT for rectal cancer                                                            | In Ja Park              | Po-Li Wei<br>魏柏立            |
| 11:35-12:00 | Institutional Experience and Reproducible Workflow for HUGO™ Robotic Colorectal Surgery: Lessons Learned from a Single-Center Series | Tao-Wei Ke<br>柯道維       | Ming-Yin Shen<br>沈名吟        |
| 12:00-13:00 | Luncheon Symposium (第一會議室)                                                                                                           |                         |                             |

3 月 21 日(星期六) Saturday, 21 March

| Time        | Topic                                                                                                                             | Speaker                                        | Moderator                                        |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------|--------------------------------------------------|
| 12:00-13:00 | Global Perspectives and Clinical Implementation of Perioperative Nutritional Care: A Reappraisal of Surgical Nutrition Strategies | Chia-Lin Chou<br>周家麟                           | Hsiang-Lin Tsai<br>蔡祥麟<br>Te-Cheng Yueh<br>岳德政   |
| 13:00-13:35 | Robotic-Assisted Surgery with integrated Table Motion                                                                             |                                                |                                                  |
| 13:00-13:30 | Optimizing Workflow in Robotic Colorectal Surgery via Integrated Table Motion                                                     | Ching-Wen Huang<br>黃敬文<br>Hung-Hsin Lin<br>林宏鑫 | Wen-Shih Huang<br>黃文詩<br>Chien-Chih Chen<br>陳建志  |
| 13:30-13:35 | Panel Discussion                                                                                                                  | Speakers and Moderators                        |                                                  |
| 13:35-14:25 | Establishing Successful Robotic Program Advanced Rectal                                                                           |                                                |                                                  |
| 13:35-13:55 | Establishing a Successful Advanced Rectal Robotic Program: The NTUH Experience                                                    | 陳穎珊                                            | Ching-Wen Huang<br>黃敬文<br>Yu-Mei Liao<br>廖玉美     |
| 13:55-14:15 | 24/7 Da Vinci Surgery: How a Coordinator Builds an All-Weather Life-Saving                                                        | Hsiao-Chi Tsao<br>曹曉琪                          |                                                  |

| 08:20-08:30 | Opening Remarks                                                                                                                 |                         |                              |
| 08:30-09:00 | Dialogue of Ribonucleases and Receptor Tyrosine Kinases and Immune Therapy                                                      | Mien-Chie Hung<br>洪明奇   | Ming-Feng Hou<br>侯明鋒         |
| 09:00-09:30 | Homologous Repair Deficiency in Cellular Senescence and Breast Cancer Progression                                               | Shyng-Shiou Yuan<br>袁行修 | King-Jen Chang<br>張金堅        |
| 09:30-10:00 | Decoding the Metastatic Cascade: From Molecular Mechanisms to Therapeutic Vulnerabilities                                       | Mei-Ren Pan<br>潘美仁      | Shin-Cheh Chen<br>陳訓徹        |
| 10:00-10:20 | Coffee Break                                                                                                                    |                         |                              |
| 10:20-10:50 | Rethinking 1L AI Treatment in HR+/HER2- Breast Cancer: When Resistance Begins Earlier Than We Think                             | Shih-Yu Huang<br>黃詩喻    | Jyh-Cherng Yu<br>俞志誠         |
| 10:50-11:20 | Protecting Bone Integrity in Breast Cancer: Xgeva new formulation with Pre-Filled Syringe                                       | Yi-Ching Huang<br>黃怡菁   | Ling-Ming Tseng<br>曾令民       |
| 11:20-11:50 | Unlocking the potential of ADC: Transforming HR+ metastatic breast cancer outcome after CDK4/6i across HER2 expression Spectrum | Chin-Yao Lin<br>林金瑤     | Dar-Ren Chen<br>陳達人          |
| 11:50-12:20 | Targeting the PIK3CA/AKT/PTEN Pathway: Rewriting Endocrine Therapy Continuum in HR+/HER2- mBC                                   | Cheng-Wei Chou<br>周政緯   | Shyr-Ming Sheen-Chen<br>沈陳石銘 |
| 12:20-13:20 | Lunch                                                                                                                           |                         |                              |
| 13:20-14:00 | Redefine the risk of recurrence in HR+ Her 2- breast cancer                                                                     | Hsu-Huan Chou<br>周旭桓    | Shou-Tung Chen<br>陳守棟        |
| 14:00-14:30 | Emerging Strategies for First-Line Treatment of Endocrine Resistance HR+/Her2- mBC with PIK3CA mutation                         | An-Chieh Feng<br>馮安捷    | Chung-Liang Lee<br>李忠良       |
| 14:30-15:00 | Personalized Treatment Approaches in Metastatic Breast Cancer: Integrating TKIs into Clinical Practice                          | Chien-Ting Liu<br>劉建廷   | Yen-Shen Lu<br>盧彥伸           |
| 15:00-15:30 | Unveiling the TROP2 Story: The Clinical Benefit of Sacituzumab Govitecan in HER2-Metastatic Breast Cancer                       | Chi-Feng Chung<br>鍾奇峰   | Tsui-Fen Cheng<br>鄭翠芬        |

|             |                                                                                              |                        |                       |
|-------------|----------------------------------------------------------------------------------------------|------------------------|-----------------------|
| 15:30-15:50 | <b>Coffee Break</b>                                                                          |                        |                       |
| 15:50-16:20 | Early TNBC: Evidence, Experience, and Evolving Practice                                      | Chih-Hao Huang<br>黃至豪  | Tsu-Yi Chao<br>趙祖怡    |
| 16:20-16:50 | First-Line to Beyond: Sequencing Strategies in mTNBC and Upcoming Options                    | Chan-Keng Yang<br>楊展庚  | Hsien-Tang Yeh<br>葉顯堂 |
| 16:50-17:20 | Advancing the SOC with T-DXd in HER2-positive mBC through real world experience              | Ming-Han Yang<br>楊明翰   | Ming-Yang Wang<br>王明暘 |
| 17:20-18:00 | Extending survival in HR+/HER2- early breast cancer: evolving strategies in adjuvant therapy | Po-Hsiang Huang<br>黃柏翔 | Guo-Shiou Liao<br>廖國秀 |

Day2

3 月 22 日(星期日) Sunday, 22 March

| Time        | Topic                                                                                                                                      | Speaker                 | Moderator                |
|-------------|--------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|--------------------------|
| 08:30-09:00 | Estrogen dependency of breast cancer, what we have learned so far from bench to bed                                                        | Shigehira Saji<br>佐治重衡  | Takashi Ishikawa<br>石川孝  |
| 09:00-09:30 | Randomized controlled trial of breast cancer screening by mammography with or without ultrasonography for women aged 40-49 : J-START Study | Takanori Ishida<br>石田孝宣 | Chen-Hsiang Chang<br>張振祥 |
| 09:30-10:00 | Current issues in Breast surgery in Japan                                                                                                  | Shinji Ohno<br>大野真司     | Chiun-Sheng Huang<br>黃俊升 |
| 10:00-10:30 | Artificial Intelligence in Breast Cancer Care: Clinical Implementation, and Future Perspectives                                            | Tetsu Hayashida<br>林田哲  | Wen-Hung Kuo<br>郭文宏      |
| 10:30-10:50 | <b>Coffee Break</b>                                                                                                                        |                         |                          |
| 10:50-11:20 | Practical Insights on Using TS-1 as Adjuvant Therapy in HR+/HER2- Early Breast Cancer: Cases, Tolerability, and Results                    | Li-Kun Ko<br>高理鈞        | Hui-Hua Hsiao<br>蕭惠樺     |
| 11:20-11:50 | Breaking the Ceiling: Strategies to Reduce Recurrence in HER2+ Early Breast Cancer                                                         | Kuo-Ting Lee<br>李國鼎     | Chao-Ming Hung<br>洪朝明    |
| 11:50-12:20 | Genetic testing for breast cancer in the era of precision medicine                                                                         | Chi-Cheng Huang<br>黃其晟  | Fang-Ming Chen<br>陳芳銘    |
| 12:20-12:30 | <b>Closing</b>                                                                                                                             | Fang-Ming Chen<br>陳芳銘   |                          |
